Continuation of Substance of Interview including description of the general nature of what was discussed:
In regard to newly added claims 10-20, claim 10 (independent) is broad but could be allowable over prior art if all of claims 14-17 were added into claim 10. However, previous 35 U.S.C. 112, first paragraph, rejection of claims 1-9 also applies to claims 10-20 and has not been overcome by applicant's arguments. It is suggested that paragraph [06] of the specification discloses driving ICs that would overcome the 35 U.S.C. 112, first paragraph, recjection if they also could be used to drive the immediate invention, not just the prior art.
